JARVIS ANALYST VERDICT

ELEVATED GOVERNANCE RISK - ENHANCED DUE DILIGENCE REQUIRED before term sheet. Subject is sanctions-clear but exhibits a board-level PEP link and an offshore ownership layer that together breach institutional governance thresholds. Recommended pre-conditions: (1) confirm beneficial ownership of the BVI vehicle, (2) obtain a conflict-of-interest waiver covering MoD procurement, (3) verify the board member's post-public-office cooling-off compliance. JARVIS VERDICT: HIGH RISK / CONDITIONAL.

02 · RISK FLAGS

7 Material Findings

#01 CRITICAL

DIRECT BOARD-LEVEL PEP LINK: Former MoD State Secretary (LV) holds a non-executive board seat at Nordhaven, an active EU / Estonian defence procurement bidder (EUR 6.2M pipeline).

#02 CRITICAL

LAYERED OFFSHORE CONTROL: 100% of founder equity routed through Baltic Nominee Holdings Ltd (BVI, FATF HIGH) - beneficial ownership obscured behind a nominee structure.

#03 HIGH

INDIRECT PEP (D-2): Pathway link to a sitting MP on the National Security Committee via a political donation record - potential procurement-influence channel.

#04 HIGH

DEFENCETECH DUAL-USE EXPOSURE: Autonomous maritime C2 / sensor stack is dual-use, EU Defence Fund co-financed, with NATO-adjacent supply-chain exposure.

#05 MEDIUM

CUMULATIVE PUBLIC PROCUREMENT: EUR 7.3M across Nordhaven + Riga DeepSensor - concentration in a single Ministry-of-Defence buyer.

#06 MEDIUM

DISSOLVED ENTITY TRAIL: Kurzeme Defence Logistics SIA dissolved 2023 holding prior MoD contracts - discontinuity in the audit trail.

#07 MEDIUM

ADVERSE MEDIA (UNVERIFIED): 1 regional outlet alleges an undisclosed advisor relationship - single source, not corroborated.

03 · ASSOCIATED COMPANIES

4 Entities Identified

COMPANY	JURIS	SHARE	FATF	PROCUREMENT (EUR)	FLAGS
Nordhaven Maritime Autonomy AS	EE	58%	LOW	6,200,000	PROC · DEFENCE

Human Review & Sign-Off

This report contains an automated risk assessment generated by the Jarvis Multi-Agent System. Under GDPR Article 22 and CJEU jurisprudence (Schufa Holding C-634/21), automated assessments that influence material decisions about natural persons require **meaningful human review** before they can be relied upon as a basis for action.

Below, the responsible analyst must (1) review the findings in this report, (2) confirm or override the automated verdict, and (3) physically sign and date this certification. Until signed, this report is **advisory only** and must not be used as the sole basis for any investment decision, regulatory filing, or third-party communication.
